We Make Your Desired

Dear Mohammad Shahjahan sir,

We are very much happy to have your call last day.

DATATECH BD LTD is very trust full company. We try to give 100% facility to our clients. Our school management software is very much flexible and easy to use system. Every year we launch an update version of our software for our client's better and easy use. It's a global standard product. But if anyone want to change the features for better use than we can develop for them. In that case they have to use this system first and wait for new version (8 or 10 months) which will be developed based on your requirement's and only for your organization.

We respect our client's valuable time. I think it'll be a perfect decision of choosing our software for your school. Hare I'm giving some documents of the features and price. Prices aren't fixed, we can fix it after discussion.

Sincerely,

Ismath Jahan

Chairman of DataTech BD Ltd.
